

2023 ASGCT CAREER DEVELOPMENT AWARDS

What are the Career Development Awards?

The purpose of Career Development Awards is to support independent transformative pilot studies in gene and cell therapy by ASGCT members, particularly those ideas that would be challenging to fund with normal funding mechanisms. ASGCT is interested in helping applicants generate their own independent preliminary data to use in larger proposals to gain independence. The American Society of Gene and Cell Therapy will award \$100,000 each to six members to fund their transformative pilot studies across six selected topics.

This year, we've also partnered with the Children's Tumor Foundation, which will support three additional Career Development Awards for research that may impact neurofibromatosis and schwannomatosis.

Career Development Award Topics

- Viral Vector Development
- Gene Targeting and Gene Correction
- Oligonucleotide Therapeutics
- Cell Therapies
- Immunological Aspects of Gene Therapy and Vaccines
- Synthetic/Molecular Conjugates and Physical Methods for Delivery of Gene Therapeutics

2022 Awardees

Jacquelyn Bower, PhD - University of North Carolina

Y. Esther Tak, PhD - Massachusetts General Hospital

Liubin Yang, PhD - Baylor College of Medicine

Alma-Martina Cepika, PhD - Stanford University School of Medicine

Tristan Scott PhD - City of Hope

Martin Kang, PhD - Medical University of South Carolina
