What are the Career Development Awards?

Six $100,000 Career Development Awards will be awarded to six ASGCT members across six categories in support of independent transformative pilot studies in gene and cell therapy.

The purpose of the Career Development awards is to support independent transformative pilot studies in gene and cell therapy by ASGCT members, particularly those ideas that would be challenging to fund with normal funding mechanisms. ASGCT is interested in helping applicants generate their own independent preliminary data to use in larger proposals to gain independence.

Career Development Award Topics

- Viral Vector Development
- Gene Targeting and Gene Correction
- Oligonucleotide Therapeutics
- Cell Therapies
- Immunological Aspects of Gene Therapy and Vaccines
- Synthetic/Molecular Conjugates and Physical Methods for Delivery of Gene Therapeutics

2022 Awardees
