The ASGCT Patient Education program provides accurate, reliable, and accessible information about gene and cell therapies to patients and the public. ASGCT collaborates with patient advocacy groups to make sure the information is clear and useful, while members of the ASGCT Patient Outreach Committee use their expertise in the field to provide scientific accuracy. ### Clinical Trials

Use our Clinical Trials Finder, a curated list of gene and cell therapy clinical trials. The data is updated daily, and eligible trials are sourced from clinicaltrials.gov.
We were able to utilize your resources as factually informative around gene therapy and because it is just exceptionally good.

– Patient Advocate

We use your Gene Therapy Basics video. It’s absolutely fantastic—very user-friendly and very easy to understand.
